EXHIBIT N

Claim Chart for U.S. Patent No. 10,523,906
COMMUNICATION AND MONITORING SYSTEM

Claims 9, 13, and 18

The SimpliSafe Video Doorbell Pro and all other similar devices provided by SimpliSafe (collectively, the "Doorbell Pro") infringes at least the claims charted below of United States Patent No. 10,523,906 (the "'906 Patent"), entitled "Communication and Monitoring System," under 35 U.S.C. § 271(a), either literally or under the doctrine of equivalents. In addition, SimpliSafe indirectly infringes the '906 Patent under sections 271(b) and/or 271(c) by instructing, directing, and/or enabling others, including its customers, purchasers, users and developers, alone, or in combination to use the SimpliSafe Doorbell Pro and/or perform all or some of the steps recited in the claims of the '906 patent, either literally or under the doctrine of equivalents, and by providing a material or apparatus for use in a patented process, when such material or apparatus is especially adapted for use in the infringement of the '906 patent, and is not a staple article or commodity of commerce suitable for substantial non-infringing use.

| U.S. Pat. No. 10,523,906	Video Doorbell Pro
[9.1] A detection and viewing system associated with an entrance comprising:	To the extent the preamble is limiting, the Doorbell Pro is a detection and viewing system associated with an entrance.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

U.S. Pat. No. 10,523,906	Video Doorbell Pro
	  https://simplisafe.com/video-doorbell-pro To the extent the preamble of claim 9 is limiting, the Doorbell Pro enables receiving a person at an entrance in accordance with the method of claim 9 at least as explained below.
[9.2] an exterior device comprising: a camera; a microphone; a speaker; a motion detector; and	The Doorbell Pro has an exterior device, or video doorbell device, that is placed or mounted on the exterior of an entrance.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

| U.S. Pat. No. 10,523,906	Video Doorbell Pro
one or more buttons,	https://simplisafe.com/video-doorbell-pro The Doorbell Pro has a camera; a microphone; a speaker; a motion detector; and a keypad having one or more buttons.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

4

U.S. Pat. No. 10,523,906	Video Doorbell Pro
	https://simplisafe.com/video-doorbell-pro
[9.3] wherein the exterior device is capable of wirelessly transmitting digital streaming video,	The Doorbell Pro is capable of wirelessly transmitting digital streaming video. The Doorbell Pro can transmit real time video via Wi-Fi to the SimpliSafe app on the user's cell-phone.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

5

U.S. Pat. No. 10,523,906	Video Doorbell Pro
	## Flawless Streaming Ultra-clear video takes more than just HD. Doorbell Pro's secret sauce is its compression. Our engineers developed a "variable bitrate compression algorithm," which is a geeky way of saying that with Doorbell Pro you get crystal clear HD video that loads quickly and plays smooth. https://simplisafe.com/video-doorbell-pro

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

[9.14] allow a user to modify a threshold of the motion detector; and	The SimpliSafe app allows a user to modify a threshold of the motion detector. The SimpliSafe app allows the user to adjust the zones or distances in which the proximity or motion sensors will detect activity. For example, a user can set the doorbell to ignore pedestrians walking a certain distance away and only notify the use if people come within a close proximity to the Doorbell Pro.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.
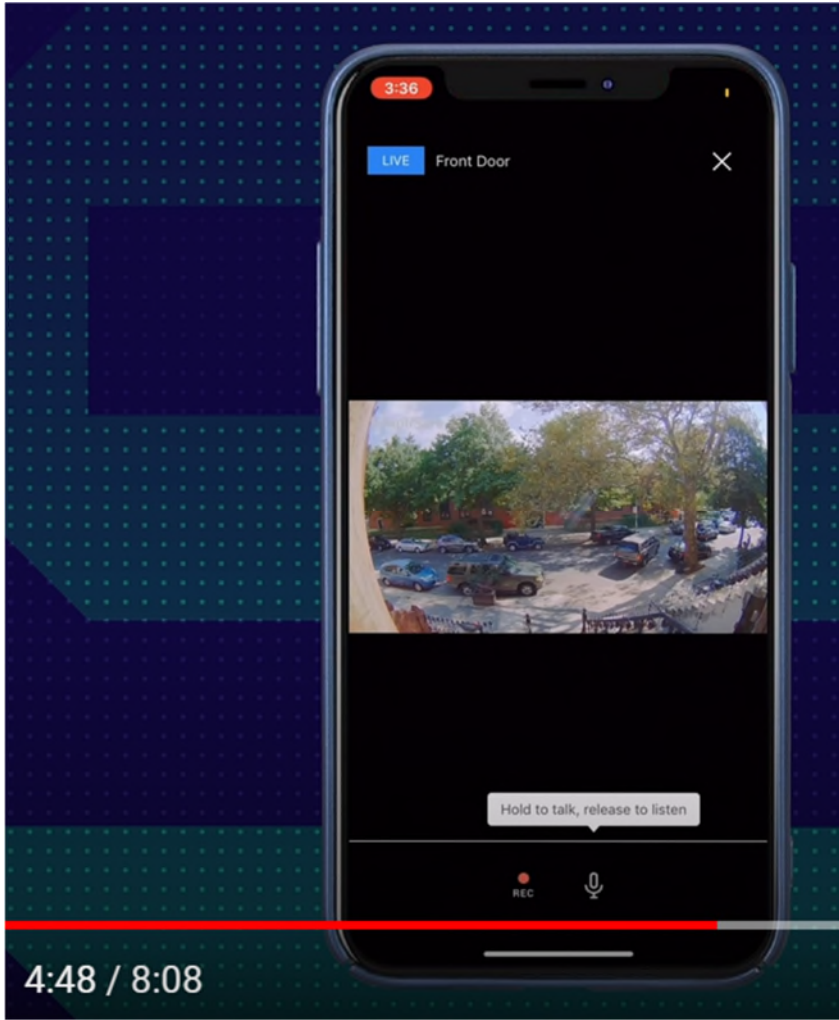

36

U.S. Pat. No. 10,523,906	Video Doorbell Pro
	## Doorbell Motion Zones The SimpliSafe Video Doorbell comes with the ability to designate motion zones within the cameras view. By default, the camera triggers motion alerts for anything within its **120 degree field of view**. You can set specific areas of the camera's view to ignore motion, allowing you to receive alerts for motion only in areas that you care about. For example, you can set your doorbell to ignore pedestrians walking on the sidewalk and only notify you if people approach the door. Setting the motion zone to exclude the sidewalk, street, and public areas can make your motion notifications more reliable. (The motion sensor within the camera has a **motion detection zone of 90 degrees**, from left to right as well as straight out and downward. This cannot be changed.) **INSTRUCTIONS:** 1. To set this up, open the app and click Cameras in the menu. 2. Click the gear icon in the upper-right corner. It's light gray, and may be hard to see at first! 3. Select your Video Doorbell on the list of cameras and then click Motion Detection. 4. Scroll to the bottom where you will see the current doorbell video feed overlaid with a grid. Just click the boxes where motion detection is not important and it will ignore motion in those areas of the video! https://support.simplisafe.com/hc/en-us/articles/360037690352-Doorbell-Motion-Zones
[9.15] play audio from the exterior device.	The SimpliSafe app plays audio from the Doorbell Pro. The user engages in 2-way audio communication with the person at the entrance where the Doorbell Pro is located by holding or releasing the microphone button icon that is displayed on the SimpliSafe app.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. 60

U.S. Pat. No. 10,523,906	Video Doorbell Pro
	Video Doorbell Pro Subscription Unlimited camera subscriptions are automatically included with the Interactive Monitoring plan. Without the Interactive Monitoring plan, camera subscriptions can also be purchased for $4.99 for one camera or for $9.99 for unlimited cameras. A subscription enables 30-day access for recorded videos. Recordings can be downloaded from your mobile app or computer. Subscribed cameras can also enable video verification to enhance their SimpliSafe security system's alarms. https://support.simplisafe.com/hc/en-us/articles/360035698811-Video-Doorbell-Pro-Subscription — **Expensive cloud storage**: While the SimpliSafe Video Doorbell Pro itself is on the affordable side, the monthly costs for cloud storage is not. Without professional monitoring, which includes cloud storage, 30 days of cloud storage on its own costs $4.99 per month for one camera. That's about $2 more than Ring's monthly subscriptions, which cover twice the amount of cloud storage. https://www.security.org/doorbell-camera/simplisafe/review/
[13.8] encrypting the digital streaming video and the digital audio.	The Doorbell Pro enables encrypting the digital streaming video and the digital audio. All communications between the Doorbell Pro and the SimpliSafe app are encrypted.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.

U.S. Pat. No. 10,523,906	Video Doorbell Pro
	23. Is the SimpliSafe system secure? SimpliSafe uses end-to-end encoding, 256-bit encryption, and SSL security certification to keep your data safe. These industry-leading security measures are robust and designed to stop hackers from using home security data for malicious purposes. https://www.security.org/home-security-systems/simplisafe/faqs/ • All communication between the base station, the app and our indoor and outdoor cameras -- whether it happens via Wi-Fi or via cellular signal -- is encrypted. https://www.cnet.com/news/home-security-systems-video-doorbells-user-privacy-data-security-abode-adt-comcast-nest-ring-simplisafe/
18. The method of claim 13, further comprising: storing the digital streaming video and digital audio in memory that is part of the device; and	The Doorbell Pro is capable of storing the digital streaming video and digital audio in memory that is part of the device. At a minimum, the Doorbell Pro must store the streaming video and digital audio in memory in order to packetize and then transmit the streaming video and digital audio. Further, Complainants believe discovery will show that the Doorbell Pro stores this video and audio in memory for additional processing and/or to achieve local long-term storage. The Doorbell Pro has internal memory at least in the form of a Kingston memory chip.

These disclosures are based upon Complainants' present understanding of the meaning and scope of the claims of U.S. Patent No. 10,523,906. Complainants reserve the right to seek leave to supplement or amend these disclosures based on further construction of these claims or based on facts revealed during discovery or both.
